CAREER OBJECTIVE

Junior Frontend Developer with hands on MERN stack project experience, building responsive React and Next.js applications with REST API integration, BetterAuth authentication, and clean user interfaces. Seeking a Frontend Developer role where I can contribute to production focused web applications, improve performance and accessibility, and grow within a collaborative team.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Responsive Design, Mobile-first UI

State & Data: Context API, Axios, REST API Integration, Form Handling

Backend & Database: Node.js, Express.js, MongoDB, BetterAuth, JWT, CRUD Operations

Tools & Deployment: Git, GitHub, Vite, npm, Postman, Vercel, Netlify, Figma, VS Code

AI Workflow: : ChatGPT, Gemini, Antigravity, README Writing

Soft Skills: Problem Solving, Adaptability, Self Learning, Attention to Detail

PRACTICAL EXPERIENCE

MERN Stack Trainee | Programming Hero | Jan 2026 – Present

- Built multiple responsive web applications using React, Tailwind CSS, Node.js, Express.js, and MongoDB through project-based assignments.
- Practiced REST API integration, BetterAuth authentication, protected routing, and deployment on Vercel and Netlify.
- Used GitHub for version control and improved code quality through mentor feedback, debugging sessions, and UI refinement.

PROJECTS

DocAppoint Doctor Appointment Booking System | Live: [DocAppoint Live](#) | Client: [GitHub](#) | Server: [GitHub](#)

Tech: Next.js, Tailwind CSS, Node.js, Express.js, MongoDB, BetterAuth

- Built a full stack doctor appointment platform with a dynamic doctor catalog, specialty based search, availability filters, and profile pages, enabling patients to book appointments without hospital visits.
- Implemented a seamless appointment scheduling system via modals with BetterAuth based session management and a dedicated private dashboard for patients to view, update, and cancel bookings.
- Designed a clean, mobile responsive UI using Tailwind CSS and Next.js App Router with reusable components, improving usability across desktop and mobile screens.

Tiles Gallery Premium Interior Tiles Showcase | Live: [Tiles Gallery Live](#) | Client: [GitHub](#) | Server: [GitHub](#)

Tech: Next.js, Tailwind CSS, MongoDB, BetterAuth

- Developed a curated tiles showcase platform where users can browse, search, and view detailed tile specifications including category, price, and dimensions in a clean two column layout, with instant search without page reload.
- Integrated Google one tap authentication using BetterAuth, maintaining sessions across page refreshes and providing secure user access across the platform.
- Structured MongoDB collections for tiles and users, connected through Express.js routes, and deployed on Vercel with proper environment variable management.

EDUCATION

Higher Secondary Certificate (HSC) — Bangladesh

GPA: 4.17 | 2025

Certifications & LANGUAGES

Certification: Complete Web Development with MERN Stack - Programming Hero, 2026

Language: Bangla: Native | **English:** Beginner (Learning) | **Hindi:** Professional Working Proficiency
